Carrer Objective

I am an aspiring web developer with a strong understanding of modern web technologies. I enjoy creating user-friendly and efficient websites, focusing on responsive design and smooth functionality. I am passionate about learning and solving problems, and I aim to grow my skills and contribute to meaningful projects. My goal is to build a successful career in web development and make a positive impact with my work.

TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, JavaScript, React.js, Tailwind CSS
- **Backend:** Node.js, Express.js, MongoDB, Firebase
- **Other Tools:** Git, JWT, Ten-Stack Query.
- **Problem-Solving** : Completed 109 questions on [LeetCode](#).

PROJECTS

DevTalks- AI-Powered Developer Q&A Platform

[Live](#) || [Client](#) || [Server](#)

Team project: DevTalks addresses the challenge of slow support and scattered resources by providing a centralized platform for instant AI answers, peer collaboration, skill testing, and curated tech content.

Key Features:

- Users can ask coding questions and get instant help from AI and real developers.
- Users can take quick AI-generated quizzes to test knowledge in specific languages.
- Users can chat live with other developers to collaborate or solve problems faster.
- Users can read helpful tech blogs posted by admins for trusted, up-to-date content.

Tech Stack: React.js, Tailwind CSS, Node.js, Express.js, MongoDB, Firebase, Socket.IO, Groq, Gemini.

Learn-Hub- Full-Stack Learning Management System

[Live](#) || [Client](#) || [Server](#)

Learn-Hub simplifies learning by providing a platform for students to book sessions, share resources. It includes role-based access, payment integration, and review management for a seamless experience.

Key Features:

- Users can easily browse and book learning sessions with secure payment via Stripe (developer mode).
- Instructors can upload course materials after approval, ensuring high-quality content.
- Admins manage sessions, users, and reviews, keeping the platform organized.
- Students can save notes from sessions for later reference.

Tech Stack: React.js, Tailwind CSS, Node.js, Express.js, MongoDB.

Blog-Heaven – Full-Stack Blog Publishing Platform

[Live](#) || [Client](#) || [Server](#)

Blog-Heaven is a full-stack platform where users can create, explore, and manage blog posts by category. It features a clean UI, intuitive navigation, and role-based access for a smooth content-sharing experience.

Key Features:

- Users can create, edit, and delete their own blogs with live markdown preview support.
- Category-based filtering helps users discover blogs that match their interests.
- Users can like, bookmark, and comment on blogs to engage with content.

Tech Stack: React.js, Tailwind CSS, Node.js, Express.js, MongoDB, Firebase Authentication
